

**WE MAKE A LIVING
BY WHAT WE GET,
WE MAKE A LIFE
BY WHAT WE GIVE.**

With a vision to give every child a healthy and joyful future, Bhagwan Mahaveer Cancer Hospital & Research Centre started this free treatment program in August 2014.

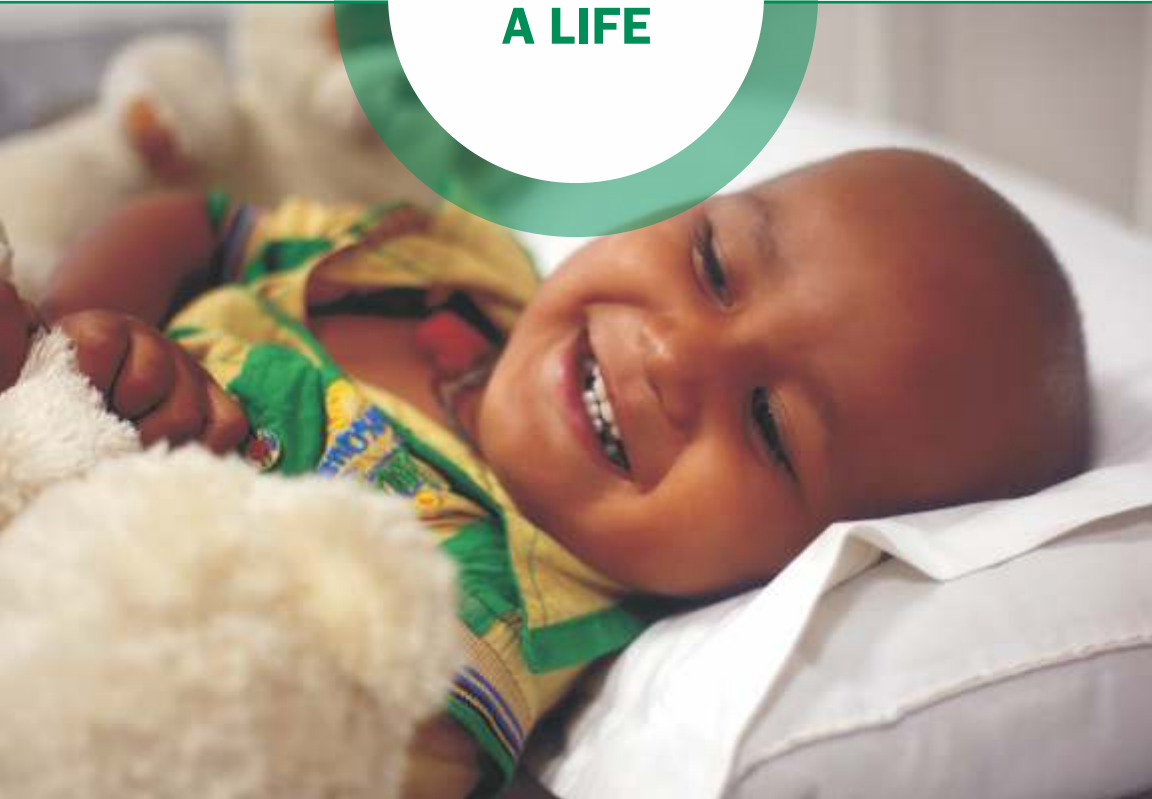

Provides complete free treatment for children (1–14 years) with treatable blood cancers — Acute Lymphoblastic Leukemia (Low Risk), Acute Promyelocytic Leukemia, and Hodgkin's Lymphoma.

Till June 2026, 291 children treated; ₹11,33,92,924/- spent on medicines and care.

182 children are now cancer-free and living normal lives.

Approx. ₹5 lakh per child gives hope and a second chance at childhood.

A LIFE**

SURVEILLANCE & EARLY DETECTION OF BREAST AND CERVICAL CANCER

Women above 40 and post-menopausal women have higher risk of breast and cervical cancers, often without early symptoms.

To promote early detection, Bhagwan Mahaveer Cancer Hospital offers free Mammography and Pap smear screenings on the second and last Saturday every

month. From July 2014 to June 2026, 897 women have been screened. ₹9,24,280/- spent on this initiative.

Each screening protects families and gives women confidence, safety, and hope for a healthy future.

Chronic Myeloid Leukemia (CML) can be frightening, but financial limits should not stop treatment. Bhagwan Mahaveer Cancer Hospital provides free Imatinib therapy to CML-CP patients diagnosed through the RQ-PCR BCR-ABL test.

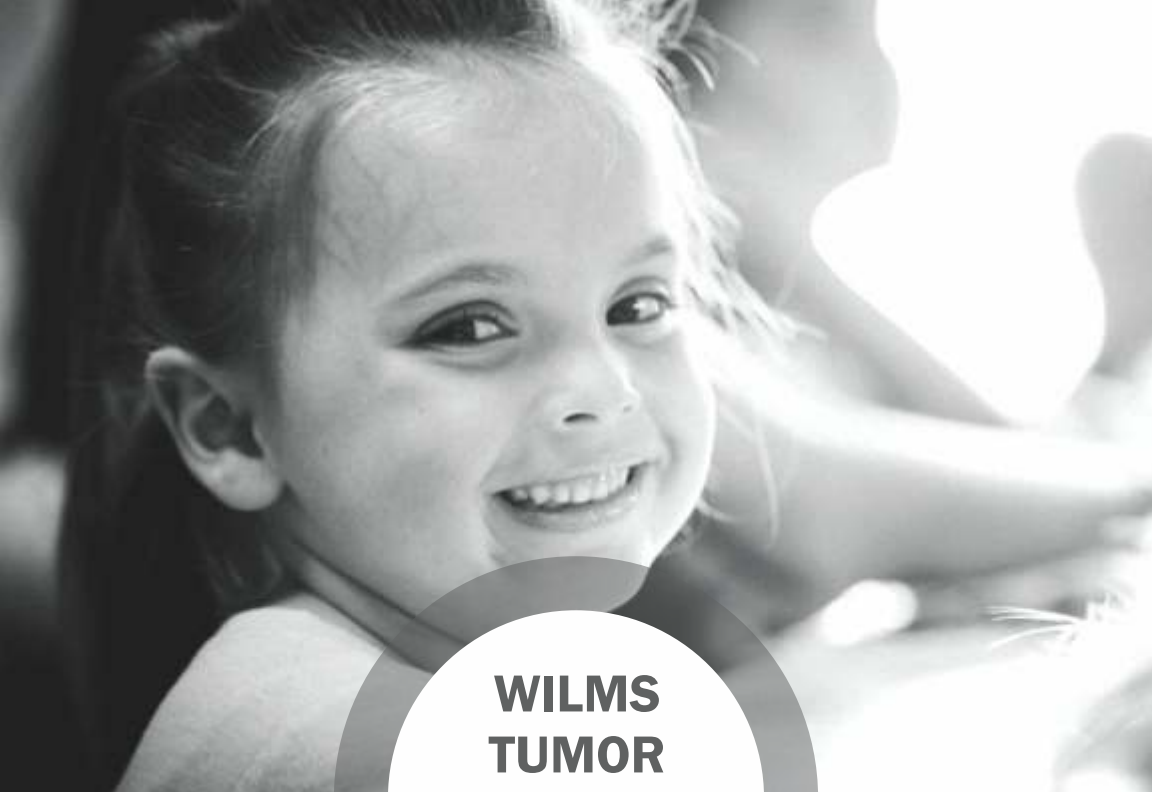

Free BCR-ABL monitoring tests are also done once or twice a year for proper disease control. Since

August 2015, 343 patients registered; 207 are currently receiving free treatment.

Patients are stable and living normal, productive lives. Approx. ₹20,000 per patient annually; total ₹2,53,78,174/- spent till June 2026 — turning a life-threatening disease into a manageable condition.

(CML)**

WILMS TUMOR (KIDNEY CANCER) PROJECT

Wilms' Tumor in children brings emotional and financial stress to families. Bhagwan Mahaveer Cancer Hospital started this project in May 2016 to provide complete free treatment (excluding external tests) for children aged 1–10 years.

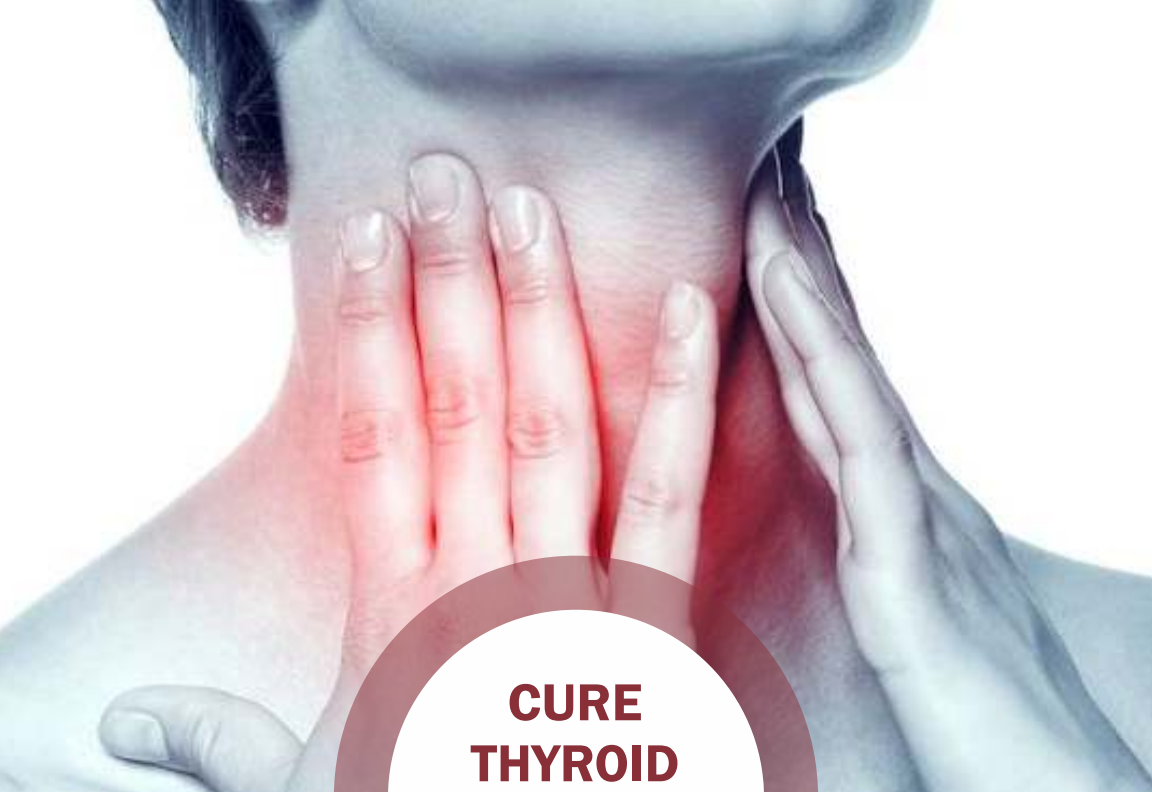

Till June 2026, 22 children have received life-saving care.
₹33, 47,103/- spent till June 2026;
approx. ₹3.5 lakh needed per child
— giving hope and a healthy future.

After surgery, chemotherapy, and radiation, breast cancer patients may still face risk of recurrence, especially in hormone-sensitive cases. Bhagwan Mahaveer Cancer Hospital started this initiative in June 2018 to provide free Adjuvant Hormone Therapy for ER/PR positive patients.

Approx. ₹10,000 per patient is

required annually. Till June 2026, 31 women registered and are now cancer-free. Total ₹5,31,182/- spent — ensuring long-term recovery, confidence, and a healthy life ahead.

CURE THYROID CANCER PROJECT

Thyroid cancer is highly treatable, with cure rates above 85% when treated on time. It affects women more, especially under 45 years. Bhagwan Mahaveer Cancer Hospital was the first center in Rajasthan to offer Radioactive Iodine Therapy.

Since May 2018, free radioactive iodine treatment is provided to eligible thyroid cancer patients. 32 patients benefited till June 2026. ₹24,06,472 spent; approx. ₹78,000 per patient — ensuring complete recovery and a fear-free future.

Some families face cancer again — either a second cancer in a survivor or cancer in their child. This initiative at Bhagwan Mahaveer Cancer Hospital offers total free treatment to eligible women with metachronous cancer and to children diagnosed after their mother's treatment.

Started in June 2019. 3 families helped till June 2026.
₹16,52,746 invested — giving support, strength, and renewed hope.

SAVE MOTHER CERVICAL CANCER PROJECT (SMCCP)

Cervical cancer is a major cause of cancer deaths in women, but early treatment can save lives. Bhagwan Mahaveer Cancer Hospital started the Save Mother Cervical Cancer Project in July 2022.

Free complete treatment is given for Stage IB, II, IIIA and IIIB patients (advanced stages excluded).

Treatment includes Radiotherapy, Cisplatin chemotherapy, and Brachytherapy.

19 women treated till June 2026.
₹44,23,937 spent; approx. ₹2.33 lakh per patient — protecting mothers and families.

To promote early cancer detection, Bhagwan Mahaveer Cancer Hospital in association with Cancer Care (Women's Wing) launched the "Cancer Jaanch Aapke Dwar" campaign on 20 January 2023. The aim is to detect common cancers at an early and treatable stage.

The program screens for breast, cervical and ovarian cancers in women, and oral, lung and prostate cancers in men. A specially designed mobile screening bus travels across Rajasthan, providing free services directly to communities. Facilities include Mammography, X-Ray, Pap Smear, and blood tests like CA-125, PSA and CBC.

The campaign reaches both urban and rural areas and also conducts health talks, awareness exhibitions and cervical cancer vaccination drives.

Till June 2026, 368 camps were organized, 33,922 people registered & screened. Through this initiative 130 cancer cases were detected early and given timely treatment.

This initiative brings cancer care closer to people — offering awareness, early diagnosis and hope beyond hospital walls.
